

— VARIEGATED STEEL SIDING BY ALSIDE —

The ALSIDE STEEL COLLECTION

A CLASSIC EXPRESSION OF STYLE

At Alside, our commitment to you surpasses the ordinary. For over 65 years, we've provided homeowners with high-quality, innovative exterior products. Our pride in workmanship and steadfast path to perfection leads the industry. Our selection of the highest-quality raw materials, coupled with state-of-the-art design and manufacturing methods, allows you to choose siding products unsurpassed in the industry. As a result of that continuing dedication to you, we proudly offer Satinwood® Variegated from *The Alside Steel Collection*.

The ALSIDE STEEL COLLECTION

SATINWOOD VARIEGATED SIDING REPRESENTS
the rich tradition of steel siding construction that performs in the most severe climates year after year.

Fused with a top coat of PVC, the heavy-duty construction and two-tone variegated colors are designed to reflect the natural grain of stained cedar without the need for routine upkeep.

PERFORMANCE POWER

Alside's Satinwood Variegated Steel Siding is manufactured with a single 8" or double 5" architectural face. These universal, horizontal profiles are suitable for nearly every style of home, and are consistent performers in even the most severe climate. As a part of *The Alside Steel Collection*, Satinwood Variegated represents the rich tradition of steel siding construction that will not rot, flake, crack, rust or chip. Satinwood Variegated siding's heavy-duty construction hides wall imperfections, and its corrosion-resistant and non-combustible properties add to your home's protection and your peace-of-mind.

Architecturally pleasing and structurally sound, Satinwood Variegated surrounds your home with strength, durability, and maintenance-free quality. Satinwood Variegated – a proven steel siding product that delivers solid performance – season-after-season.

COLOR COORDINATED CHOICES

Satinwood Variegated Steel Siding is available in four multi-toned colors each representing the genuine look of stained cedar. A unique manufacturing process provides a non-repeating woodgrain pattern for realistic wood-like appearance. Available in both a double 5" clapboard and single 8" clapboard to accentuate your home's architectural style. With your individual preferences in mind, Satinwood Variegated Steel Siding has been expertly designed and skillfully finished to reflect the natural grain of stained cedar siding – without the headache of continual maintenance.

SETTING A STANDARD TO MATCH

Like all Alside products, *The Alside Steel Collection* is manufactured using advanced production and quality management processes. The result is siding that meets the highest standards for material and manufacturing excellence. Satinwood Variegated Steel Siding meets exacting standards for strength, durability, and maintenance freedom.

THE STRENGTH LIES WITHIN

By choosing Alside Steel Siding, you have invested in a versatile, durable and enduring siding product for your home. Satinwood Variegated siding's practicality and combination of features provides you with a distinctly strong siding coupled with unsurpassed performance and beauty. At Alside, we extend the possibilities – giving you product choices to match your personal taste and lifestyle.
