ARCHITECTURAL PANELS

PROUDLY MADE IN AMERICA

# EXTERIOR PANELS

## BEAUTY MEETS BRAWN

Stonewood Exterior Panels are as durable as they are beautiful. Designed to withstand all weather conditions, panels are available in a variety of vibrant and neutral design options and dimensions, allowing you to create an unforgettable impression.

ROOSEVELT & 50TH

NORTHGATE TRANSFER CENTER

Economical, fast delivery, self-edging or traditional, pre-fabricated or cut onsite, Stonewood Panels fit your budget and construction schedule.

Stonewood Panels perform, passing the stringent NFPA 285 Standard Fire Test for exterior wall assemblies.

# INTERIOR PANELS

## CAPTURE A MOOD

With countless features and a vast design offering, Stonewood Architectural Panels forge limitless expressions. Add design flair and create spaces that inspire with Stonewood's sophisticated, clean, and durable Interior Panels.

NORTON CULINARY ARTS CENTER

Environmentally responsible, panels are available with Forest Stewardship Council® certification. Furthering our commitment to sustainability, energy used in production is sourced from in-house scrap materials.

Manufacturing and customer service are located in Wisconsin, ready to give you quotes, send samples and offer-on-the-spot answers to your technical questions.

## ABOUT STONEWOOD PANELS

Stonewood Architectural Panels are solid phenolic panels manufactured by Fibersin. As durable as they are chic, versatile Stonewood Panels provide sturdy exterior open joint paneling as well as beautiful interior wall covering.

Ideal for a wide range of project types, Stonewood Panels are made to order with low minimum requirements.

All panels are proudly manufactured in the USA, ensuring exceptional product quality, competitive pricing, and on-time delivery.

### CLADDING BUILT TO LAST

- Non-porous surface, easy to clean; graffiti and scratch resistant
- Simplified long-term maintenance, replace singular panels as required
- Highly impact resistant, ideal choice for heavy traffic areas
- Available with Class A or B fire rating
- Passed stringent NFPA 285 Standard Fire Test for wall assemblies.
- Standard ten (10) year warranty

### NEW IN-HOUSE ATTACHMENT SYSTEMS:

- Concealed Fastener (CF) System: Stonewood's CF System is engineered to offer customers an all-in-one fastening and panel system, simplifying the installation process, minimizing SKUs in the field, and creating a system that can be fully designed and tested together.
- Stack System: Stonewood Stack is a concealed fastener attachment system that does not require drilling and ensures exceptional speed of installation.
- Exposed Fasteners (EF) System: Exposed Fasteners by Stonewood can be color matched to any Stonewood design, allowing the fasteners to seamlessly blend in.

### STRAIGHTFORWARD INSTALLATION AND ATTACHMENT

- Attach using fastener systems by Stonewood (exterior) or threaded fasteners (interior)
- On-site or factory fabrication options
- Self-edging or traditional edge treatments

### PANELS FOR EVERY PURPOSE

- Division 07-42 Solid Phenolic Exterior Wall Cladding
- Division 09 Finishes (Interior)
- Suited for all construction types: commercial, hospitality, mixed-use, municipal, multi-family, healthcare and institutional
- Interior panels optimized for use as elevator panels, soffits, entryways, lobbies, common areas and more

### ENVIRONMENTALLY RESPONSIBLE

- Proudly offered with Forest Stewardship Council® certification
- Production energy sourced from in-house scrap materials

### STAND ALONE IN A WORLD OF COLOR!

- Vast selection of woodgrains, solids, and abstracts
- Continually updated to incorporate the latest trends
- Interactive web interface for easy browsing

responsible forestry

#### FSC® Certified

Fibersin Stonewood Architectural Panels are available with Forest Stewardship Council® certification. FSC certification provides third-party assurance that all wood fibers are from responsible sources. Green building standards, including the US Green Building Council's LEED program, provide incentives for using FSC certified materials. Increasingly, customers are requesting FSC certified products for their green building initiatives.
